

 <p>SMALL SCALE FOOD PROCESSOR ASSOCIATION <small>SUPPORTS INDEPENDENT FOOD PROCESSORS & GROWERS</small></p>	<p>Document No. HUB.PRE.REC.152 Effective Date: 7/26/22 Revision Date: NEW</p>
<p>Map of Testing Sites</p>	<p>Revised By: MDaskis Approved By: NRoss Reason for Revision:</p>

The plant schematic is specific to each HUB. Traffic patterns in the facility are identified on the plant schematic. The plant schematic can also be used as a graphic record of sampling sites in the facility.

This may include

Sanitation chemical concentration at various stations

Environmental monitoring (Listeria swabs, ATP swabs etc.).

Regular observation of pest control device (damage, location)

Routine testing of water potability

Laminating the map and using a removable marker makes it easy to reuse.

Recording sites on an excel sheet with established frequency is also a useful record.
